PAG X1 Camcorder Support System (includes counterbalance).
Model No. 2001

Model No. 2002

Model No. 2001

The new PAG Orbitor Camcorder Support System provides the following features and benefits:

- ▶ Balanced and stable shooting platform.
- ▶ Reduces fatigue on long shoots.
- ▶ 3-axis control lets you pan, tilt and roll, smoothly.
- ▶ Camera feels weightless and control is effortless.
- ▶ Allows a wide range of shooting techniques.
- ▶ Shoot at right-angles to your body, in a car or on a narrow staircase.
- ▶ Hands free resting is possible between shots.
- ▶ Fully-adjustable for any operator.
- ▶ Fully-adjustable for any camcorder.
- ▶ Quick release camera plate.
- ▶ Suspension rod absorbs camera shake.
- ▶ Adjustable shoulder assembly incorporates high-quality leather pad.
- ▶ Shoulder straps are secured to a waist belt, maintaining the ideal position during use.
- ▶ Tough but lightweight construction (only 2.65kg without counterbalance).
- ▶ Disassembles quickly.
- ▶ Compact, professional bag available*.
- ▶ Professional accessories such as remote controls and LCD monitors can be clamped to the structure*.
- ▶ Power the Paglight M and camcorder with 12V to 14.8V PAGlok batteries (via DC Adaptor)*.
- ▶ Power the Paglight C6 and camcorder with C6 PowerPack (via DC Adaptor)*.

PAG X1 Camcorder Support System

- ▶ Economic, single-handed model with pan and tilt facility.
- ▶ Additional support rod and waist pad available* that provides added stability and allows hands free resting between shots.

Right-angled tracking shots

Hands-free between shots

Economic, single-handed version

* These accessories are not included. Patent applied for.
