0.7X Wide Angle Converter (72mm)

You are no longer limited to the range of your camcorder's built-in zoom lens. 16x9 Inc's 0.7X Wide Angle Converter offers a top-quality and cost-effective method of obtaining wider angle images with the new Sony HVR-Z1U HDV as well as other cameras.

Highest Optical Standards

The 0.7X has been constructed with no sacrifice to quality. Made in Japan exclusively for 16x9 Inc., the craftsmanship is meticulous in every detail. Materials are the finest grade available. This top quality optical product employs three multi-coated optical glass elements to yield clean, high-definition pictures.

Front Filter & Mattebox Compatible

The Converter's 95mm front thread allows users to directly thread mount glass filters and other accessories. Plus, this new optical accessory integrates beautifully with professional mattebox systems such as those from Chrosziel.
