## EX Compact Super Fisheye Adaptor

Introducing the EX Compact Super Fisheye. A smaller, lighter version of the ultra wide-angle EX Super Fisheye, this new single-element fisheye adaptor is custom crafted to meet the higher demands of the new higher resolution, compact HD camcorders.

### Extreme Magnification

Adding 0.4X magnification, the EX Compact Super Fisheye expands the view of the camera's original lens, for a wide-eyed perspective that draws the eye closer to the center of the action. Images take on a convex appearance with exaggerated angles and extreme barrel distortion.

### Compact and Lightweight Design

With its concise shape and front diameter of 90mm, the Compact Super Fisheye is tailored to fit beautifully on smaller-size cameras. Mounted to the front of the lens, it delivers a 116° horizontal field of view. Weighing only 187g, this ultralight adaptor is an excellent optical tool for handheld work. Plus, the unit's compact size and weight make it less susceptible to damage than larger, heavier accessories.

### Works Beautifully with a Range of Cameras

A 72:62mm step-down ring is available for mounting to the Sony HVR-V1U and HVR-FX7. Secured by a single set screw, the ring is anchored to the back of the adaptor. The unit's convenient 72mm screw-in rear thread attaches neatly to the front of most popular HD camcorder lenses.

### Works with the following cameras:

- » Canon XH-A1/G1
- » Canon XL-H1
- » Panasonic DVX-100B
- » Sony V1U/FX7, with use of 72:62mm step-down ring (NOT INCLUDED)
- » Sony Z1U/FX1
- » Sony PD170/150, with use of 58mm step-down ring (NOT INCLUDED)

### Features

- » HD Quality
- » Works with 62mm Front Thread Cameras; With use of 72:62mm Step-down Ring (NOT INCLUDED)
