

EX 0.75X Wide Angle Converter (72mm)

Introducing the premiere collection of lens accessories created solely to complement the newest compact HD camcorders. The EX 0.75X precision glass lens expanders deliver more telephoto reach or increased wide-angle view while maintaining exceptional image quality to realize the camcorder's full potential.

Highest Craftsmanship & Optical Standards

Manufactured exclusively in Japan, the 16x9 Inc. EX 0.75X Wide Converter is impeccably crafted of the finest grade materials and features a cutting-edge HD-quality design. Four multi-coated glass elements reduce geometric distortion and improve off-axis wide angle performance, particularly chromatic aberrations and flatness of field.

Suitable for Multiple Cameras

The EX 0.75X Wide Converter features a convenient 72mm screw-in rear thread that screws into the front of most popular DV/HDV camera lenses.

Suitable for the following cameras:

- » Canon XH-A1/G1
