EX Super Fisheye Adaptor

Introducing the new EX Super Fisheye: the premiere single-element fisheye adaptor for the Canon XH-A1 and other compact HD camcorders. A favorite of skateboarders and extreme sports photographers, fisheyes expand the view of the lens, providing a wide-eyed perspective that pulls the eye close to the center of the action. Images appear convex with exaggerated angles and extreme barrel distortion.

Super Magnification

Adding a full .45X magnification, the EX Super Fisheye is simply the widest single-element fisheye on the market.

Lightweight Design

The unit weighs just 13.75 oz. (390g) and has a front diameter of 120mm. The Super Fisheye's 72mm screw-in rear threads allow it to work equally well with similar sized camcorders.

Suitable for the following cameras:

- » Canon XH-A1/G1
- » Canon XL-H1
- » Panasonic HVX-200 requires 72:82mm step-up ring (*INCLUDED*)
- » Panasonic DVX-100B
- » Sony V1U/FX1 requires 72:62mm step-down ring (*NOT INCLUDED*)
- » Sony Z1U/FX7

Features:

- » HD Quality
